

Your Task

Write a letter to the organisers of the Imperial War Museum exhibition “The First World War and Cultural Memory”. The letter must be no longer than 200 words.

Write wording for a label for the exhibition briefly describing your artefact or memorial. Include how the designers and makers meant to make people feel about the First World War when it was first created.

Include a labelled sketch of how the artefact or memorial should be exhibited i.e. will it be behind glass?, will visitors be able to walk around it ?, will it be mounted?, how will it be lit? etc.

Recommend what original artefacts from the Imperial War Museum's own collections should be displayed alongside your artefact or memorial so that visitors can make more sense of it e.g uniforms, weapons, documents etc.

Recommend how visitors should be made to feel about the artefact or memorial today (and why this might be different to what people felt when the artefact or memorial was first produced).
